⁴ Driver-assist features are supplemental and do not replace the driver's attention, judgment, and need to control the vehicle. It does not replace safe driving. If stop is longer than three seconds, the driver must intervene, and press "RES" button or accelerator pedal to resume system operation. For optimal/best performance, Lincoln recommends keeping map data updated by fully activating the vehicle's Lincoln App. Connect modem and enabling Connected Navigation Services. See Owner's Manual for details and limitations.

⁵ Lane-Keeping System does not control steering. Driver-assist features are supplemental and do not replace the driver's attention, judgment, and need to control the vehicle. It does not replace safe driving. See Owner's Manual for details and limitations

⁶ Driver-assist features are supplemental and do not replace the driver's attention, judgment, and need to control the vehicle. Intersection Assist does not detect all vehicles in intersections, pedestrians, or cyclists. It does not replace safe driving. See Owner's Manual for details and limitations

⁷ Available feature on select vehicles. BlueCruise requires an active plan or trial – see lincoln.com/technology/bluecruise for details. Terms apply. BlueCruise is a driver-assist feature and does not replace safe driving or driver's attention, judgment, or need to control the vehicle. Only remove hands in a hands-free Blue Zone. Always watch the road and be prepared to resume control. See Owner's Manual for details and limitations

¹² Compatible Android or iPhone with compatible active data plan and software required. Wireless use of Android Auto requires a compatible

Android 11.0+ phone and compatible active data plan. Check g.co/androidauto/requirements for compatibility. Lincoln Digital Experience does not control third-party products while in use. Third parties are solely responsible for their respective functionality.

¹³ The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist® to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to the Lincoln operating system, and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated.

Aftermarket on-board diagnostic devices may interfere with various vehicle systems including Vehicle Health Report and 911 Assist®. To avoid interference, remove the device or contact the device maker for more information on compatibility

¹⁴ System must be turned off before entering an automatic car wash
